

Dear Sir; K-Love, 90.7 FM, serves not only us, but many families in our local listening area. We are concerned of how the community may be affected by the possible loss of this family-friendly station. This is one of very few listening stations that is greatly enjoyed by the entire family. Loss of this station would have a negative effect on this conservative community that values Christian morales. This station is in public interest not only because of the above mentioned comments, but also because it promotes high morales, values, is uplifting in format, is safe listening for the entire family and promotes a wholesome atmosphere. Thank you for not allowing this station to be removed from the air.

Sincerely,
Ian and Lisa Morse
